

Exercice DOM Settimeout

Dans une page web, en utilisant la fonction settimeout, faire en sorte qu'au bout de 3 secondes (soit 3000 ms), un titre apparaît sur la page et des modifications du style sont effectuées.

La page quand elle est chargée :

The screenshot shows a web page at <http://127.0.0.1:5500>. The title of the page is "D.O.M Events". On the left, there is a form with fields for "Email address" (containing "name@example.com"), "Title" (containing "your title"), and "Example textarea". Below the form is a "Submit" button. On the right, there are four cards, each featuring a placeholder image of a landscape and the text "Card title". Above the cards is a row of buttons labeled "Ajouter Classe", "Suppr Classe", and "Toggle Classe". Below the cards is another card with the same structure. At the bottom of the page, there are three paragraphs of placeholder text (lorem ipsum) followed by a "3 -" prefix.
